We do not ask for any type of Financial support to any organization or private. We want only moral and logistic support to spread the word about this POWERFULL tool.

We will like to have posters translate into other local language. In our web site there is a Contributors link where people can download the text in a word document, type next to it translation, then save it and send it back to us. We build the posters and put them available on the web. Its only 8 lines of text a job to be done in 5 minutes.
